

GAGE CENTER EDUCATIONAL FIELD TRIPS

**PRESCHOOL - ELEMENTARY
MIDDLE SCHOOL - HIGH SCHOOL**

- Themed Olympic style competitions teach children with experiences that cannot be duplicated in school but are nonetheless an integral part of school instruction.
- Core subjects are studied using physical activities that are fun, to increase knowledge and understanding of a subject. Participating as teammates and competitors builds important social skills while reinforcing the objectives chosen for their event.
- Students will leave with a practical understanding of the how and why of Communication Arts, Science, Math, Social Studies, and Physical Education.
- Educators may choose from a variety of events that will guide your students to understanding the benchmarks required for improved test scores. Choose the subjects that your students are studying as an introduction or as review.
- Educational Field Trips will be customized for you by our experienced staff to meet the needs of your students by grade level.

All of GAGE Center's Educational Field Trips are staffed by our trained instructors. Students are chaperoned and assisted in small groups by your own parent volunteers or your school staff.

Our program director has a proven track record in creating educational field trip curriculum that satisfies the need of educators and students alike while following the content guidelines set by Missouri and Kansas. References are available upon request.
